Alcohol exposed -- Mount Kisco, NY: Human Relations Media, c2000. (Video)

Abstract: Alcohol is the most widely available and most abused drug in the world today. This point is driven home in this video and print package in a way that middle schoolers and junior high students will understand and remember. Students see the short-term and long-term harmful effects alcohol causes on the body as well as the intoxicating effects on the mind. Using interviews and narration by peers, the video exposes ways that alcohol use interferes with health, education and personal lives. The ravages of alcoholism and the struggles of families living with alcoholics are presented. Binge drinking is singled out as a very dangerous and potentially lethal activity that young people must avoid at all costs.

Deadly persuasion : the advertising of alcohol & tobacco -- Northampton, MA: Media Education Foundation, 2003. (Video)

Abstract: From publisher: "In this video, Jean Kilbourne exposes the manipulative marketing strategies and tactics used by the alcohol and tobacco industries. Illustrating her analysis with current advertising examples from mainstream and trade sources, Kilbourne presents a compelling argument that these industries have a clear and deep understanding of the psychology of anxiety and addiction - an understanding they exploit to create and feed life-threatening dependencies on their products. In the name of education and health, this video casts a critical eye on the corporate interests of the industries whose products kill more than 450,000 Americans each year."

Drinking apart : families under the influence / Kenneth Paul Rosenberg; Maryann DeLeo; Amanda Zinoman; Curtis Lundy; Joel Goodman. -- Princeton, NJ: Films for the Humanities & Sciences, 2004. (DVD)

Abstract: "Millions of Americans wrestle with a drug or alcohol problem during their lives, usually without the aid of counseling. But at Ackerman Institute for the Family, teams of counselors help many to regain their freedom. This program tracks the progress of a husband and wife, a mother and teenage daughter, and a young couple over a three-year period as they fight their way to recovery. Candidly filmed at Ackerman, at Addicts Rehabilitation Center in New York, and even in the subjects' homes, the documentary provides

valuable insights into both the devastating effects of drug and alcohol dependence on different types of relationships and the methods being used to assist in breaking addictions"--Container.

A little problem at home -- Green Bay, Wis. NEWIST CESA #7 Telecommunications, UW-Green Bay, 1990. (Video)

Abstract: "A little problem at home" presents experiences of adult children of alcoholics (ACAs). They candidly tell what it was like growing up in a home with an

alcoholic parent, and how it affected their lives. Focuses on the unique problem of children in alcoholic families where there is also family abuse--the double abuse of alcohol and each other: physically, emotionally, sexually, by neglect or in combination. Adult and adolescent children of alcoholics candidly tell what it was like growing up in a home with an alcoholic parent, how it affected their lives, and the steps they had to take to overcome the effects of being a child of an alcoholic.

Tell me something I don't know -- Lexington, KY: The International Fraternity of Phi Gamma Delta, 2003. (DVD)

Abstract: In the fall of 1997, Scott Krueger began his college career at the Massachusetts Institute of Technology (MIT). Tragically, only a few weeks into the semester, he died from complications caused by alcohol poisoning. Scott and his pledge brothers in Phi Gamma Delta apparently consumed large

quantities of alcohol during Animal House Night, a foolish and inappropriate event organized by members of the fraternity. Despite knowing that such an event was prohibited by the rules and policies of the organization, the members decided that they would take the risk and hold the event. After Scott's death, questions arose revolving around responsibility, poor decisions, alcohol abuse, and hazing. A lawsuit resulted, and part of the settlement agreement provided for the production of this film.

Audience: College; Adults; Educators; Senior High School (9, 10, 11, 12); Parents; General

The truth about teen alcohol use : a social norms approach / LaCour, Angelique. ; Craig, David W. -- Sherborn,MA: Aquarius Health Care Videos, 2002. (Video)

Abstract: A social norms approach is taken to show high school students that most of their peers do not drink. Dr. David Craig leads a panel of teenagers in discussion of what the students perceive is happening versus what is really true. While the students perceive that 70-90% drink, an anonymous survey shows that the opposite is true--70% do not drink.

Audience: Junior High School (7, 8); Senior High School (9, 10, 11, 12)

Understanding addiction and emotional child abuse -- Carpinteria, CA: FMS Productions, 2002. (DVD)

Abstract: Psychologist Oliver Tuthill takes viewers into the often misunderstood world of drug and alcohol addiction and explores the link between addictions and how one was treated as a child. Three recovering addicts share their stories while researchers and clinicians offer insights into this often ignored hypothesis. This is an excellent video to use for training with therapists and to share in support groups. It is a great discussion starter.

Web of addiction : research into addiction and the nature of addiction /

INTELECOM Intelligent Telecommunications (Firm) ; Aquarius Health Care Videos (Firm) -
- Sherborn, MA: Aquarius Health Care Videos, 2000, ©2001. (Video)

Abstract: This program analyzes current research regarding chemical use and abuse, and the nature of addiction and dependency, whatever the substance. Interwoven with this investigation is the human side of addiction, as those who are dealing with the problem share the pain of their physiological, psychological, economic, and social bondage. Psycho-biological treatment strategies, as well as community and worksite intervention programs that are having success, are examined from professional, patient, and family points of view.

Audience: Health Care Providers; Adults; General

Women with alcohol dependency : more common than you think / Muchowski, Patrice. / Dartmouth/Hitchcock Medical Center. -- Sherborn, MA: Aquarius Health Care Videos, 2004. (Video)

Abstract: This program profiles women of different ages and backgrounds who are in recovery. Though the incidence of alcoholism is slightly less among women than men, once it develops, this disease tends to progress more rapidly in women. Physiological differences quickly put women at a greater risk for physical complications. Some of which are unique to women (breast cancer & bearing a child with fetal alcohol syndrome). (Closed-captioned)

Audience: Women; Human Service Professionals; Health Care Providers
